## PROJECTS

- Automatic Drug Dispenser
  - Made for SIH to reduce the crowd in medical stores . First app generates the QR code and second app scans it and dispense the prescribed medicine .
  - Prepared 3d model of dispenser and worked on Arduino .
- Portfolio website
  - *Aboutvivek.netlify.com*
  - Created portfolio website for myself using HTML CSS JAVASCRIPT .
  - Uploaded it on github and deployed it on Netlify .
- Music Player
  - *Musicbyvivek.netlify.com*
  - This website is a PWA that can be installed on both PC and mobile .
  - Made a custom music player with custom music controls and integrated keyboard actions.
